## About the College

St. Joseph's College (SJC) was founded by the Jesuit visionaries in 1844 with the noble aim of educating humanity *for the Good and the True (Pro Bono Et Vero)*. Serving as a beacon of light for everyone aspiring to pursue holistic higher education, the college caters to the educational needs of all sections with a marked emphasis on the preferential option for the poor, the marginalized, the first-generation learners and the other deprived sections of the society.

### SJC

- secured 27<sup>th</sup> position in NIRF Ranking in 2021.
- secured A<sup>++</sup> (2019) in NAAC accreditation process.
- received the coveted honour of the Special Heritage Status from the UGC in 2015.
- was recognized by the UGC as a College with Potential for Excellence in 2004 & 2014.
- was one of the first colleges to be granted autonomy by the UGC in 1978.

## Why FDP on Soft Skills?

The significance and relevance of Soft Skills Training for Faculty members in Higher Education has gained swift momentum in recent times. St. Joseph's College, the first institute in India to begin a Soft Skills course for postgraduate students, and the first institute in the Bharathidasan University to begin a similar course for undergraduate students, has reaped rich rewards as the campus recruitment and placements have risen sharply in the college.

Joseph's Academy of Soft Skills (JASS), instituted by the college to train the staff and the students in soft skills expanded its activities in Feb. 2021 by organizing a Five-Day International Webinar on Soft Skills. The overwhelming response, active participation, exciting enthusiasm in daily assessment tests and highly positive evaluation given by the participants have encouraged us to organize another Five-Day International Webinar on Soft Skills duly accommodating all the suggestions given by the participants.

## Who can apply?

Interested teachers and trainers from colleges, Executives from the Industry, Government and Private Sectors and research scholars desirous of improving the skill sets.

# PROGRAMME

## DAY 1

08 November 2021 | 5:00 pm - 7:00 pm

### NURTURING AN INCLUSIVE LEARNING ENVIRONMENT- AN AI BASED APPROACH

Personalizing learning is the need of the hour! Learners facing a disconnect from online classes is a reality that must be addressed. With customized actionable insights from AI, instructors can endear to the student community thereby enhancing engagement and confidence in the learning process. Student study patterns can be analyzed allowing the faculty to course-correct when there is still time to do so. Things bring involvement, purpose and empathy to the learning process creating an inclusive learning environment.

# DAY 2

09 November 2021 | 5:00 pm - 7:30 pm

## SESSION ONE

5:00 pm - 6:15 pm

### DECIDE YOUR TOMORROW TODAY – BEING FUTURISTIC

Life is a question of ability to look past the events of today and into the possibilities of tomorrow. We need to visualise new ideas about people in our personal life and about product, services and strategies in our professional life. The leaders of tomorrow need to think further into the future and implement new ideas in a timely manner to remain competitive in a world that changes faster than we think and understand. With a futuristic mindset, we can create a better tomorrow for ourselves and society at large.

## SESSION TWO

6:15 pm - 7:30 pm

### CREATIVE MINDS: MAKING IDEAS HAPPEN

Everyone is an idea machine, but ideas happen to a few more often than they do to most others. Creative minds stretch themselves to see possibilities which are usually invisible. Regardless of how "inside-the-box" your thinking is, this session will make you believe that you have the capacity to be creative!

## DAY 3

10 November 2021 | 5:00 pm - 7:00 pm

# PERSONAL MANAGEMENT, GROOMING & PRESENTATIONS

Have you ever found yourself running on a Hamster wheel and wondered how you could stop spinning and make conscious choices? Managing yourself is just as important a skill, as it is to manage your work and home. And more often than not, this crucial skill is overlooked to an extent where we lose sight of our goals and priorities in life. The significance of self-grooming and presenting a better version of yourself takes a hit too.

## DAY 4

11 November 2021 | 5:00 pm - 7:00 pm

# SOFT SKILLS ARE THE NEW CORE SKILLS

In today's world, irrespective of whichever domain or profession, in order to succeed, Soft Skills have evolved to become Core Skills. In fact, labeling skills as soft undervalues them because these competencies are more clearly defined today. From effective communication to social etiquette and even personal branding, we will delve into all that you need to know about why there is nothing soft about Soft Skills anymore!

As an HR Professional and a Core Skills Coach, I will share with you my experiences of how 'Smart-working' trumps 'Hardworking' all thanks to these Core Skills!

## DAY 5

12 November 2021 | 5:00 pm - 7:00 pm

# SOFT SKILLS AND GENDER BALANCE FOR STEM

The development in Science, Technology, Engineering and Mathematics (STEM) disciplines demands an equal mixture of hard and soft skills and many years of knowledge investment.

The transition to become an effective professional entails much more than academic knowledge and research acquired through higher learning institutions. Reducing

the gender gap in STEM education areas could help reduce skills gap, increase employment and productivity of women and reduce occupational segregation. Ultimately this would foster economic growth via both higher productivity and increased labour market activity.
