Value-Added Course

Food Standards and Quality control

Report

The Value-Added course on Food Standards and Quality control is offered by PG and Research Department of Chemistry, St. Joseph's College (Autonomous), Tiruchirappalli during the academic year 2022-2023. The Value-Added Course was inaugurated by Dr. Arunkumar Panneerselvam, Principal Scientist, **CFTRI-CSIR**, Mysuru, Karnataka on 05.01.2023. It is a thirty hours course conducted in both online and offline modes. The Value-Added Course consists of five units. Delegates from various pioneer institutions like **Central Food Technology Research Institute -CSIR** Mysuru, **Indian Institute of Technology** Kharagpur, **Birla Institute of Technology** Ranchi, **Institute of Chemical Technology** Mumbai, and **Tezpur University** Assam have covered various topics of the course which have appreciation in the knowledge of the students towards Food Standards and Quality control, further theory and practical classes are conducted for 30 hours and the course got completed on Wednesday, the 12th April 2023.

The number of students who have opted for the course is 100 and the number of students completed their course is 71.

19/04/2023

Department of Chemistry
St. Joseph's College (Autonomous) Thiruchirappalli.
Value Added Course

Semester	Course Code	Title of the Course	Hours	Credits
	21CHVC01	Food Standards and Quality Control	30	-

Unit-I Food Quality

Introduction-history of quality control in ancient India-the beginning of FDA-importance of food quality-types of foods-food borne diseases-causes of food borne diseases-need for food laws-food quality assurance- terms -quality system, food quality control, food safety, food standards, food risk, food hazard, food toxicity.

Unit-II Food Sampling and Quality Analysis

Food Sampling Introduction-the purpose of food sampling-classification of foods for the purpose of food sampling-important considerations for food sampling-approaches for food sampling-levels of sampling-the sample size-selection of sampling procedure-problems in sampling- preparation of samples.

Quality analysis: Introduction-quality parameters-methods of analysis-instrumental methods-types of viscometers-measurement of colour-physical methods.

Unit-III Food Additives and Adulteration

Food additives: Antioxidants, sequestrants, preservatives, nutrient supplement, emulsifiers, stabilizers and thickening agents, bleaching and maturing agent, sweeteners, humectants and anti-caking agents, coloring and flavoring substance.

Food adulteration: Types of adulterants- intentional and incidental adulterants-health hazards and risks.

Unit- IV Methods of Detection of Food Adulteration-I (Practical I)

Oil and fats-sugar-confectionery-food grains & its products-salt- spices & condiments.

Unit- V Methods of Detection of Food Adulteration-II (Practical II)

Milk and milk products-fruits-vegetables-beverages-sensory evaluation quick tests.

Report of Value-Added Course
Food Standards and Quality control (on going)

The Value-Added course on Food Standards and Quality control is offered by PG and Research Department of Chemistry, St. Joseph's College (Autonomous), Tiruchirappalli during the academic year 2022-2023. The Value-Added Course was inaugurated by Dr. Arunkumar Panneerselvam, Principal Scientist, CFTRI-CSIR, Mysuru, Karnataka on 05.01.2023.

It is a thirty hours course conducted in both online and offline modes. The Value-Added Course consists of five units. Delegates from various pioneer institutions like **CFTRI-CSIR** Mysuru, **IIT** Kharagpur, **BIT** Ranchi, **Institute of Chemical Technology** Mumbai, **Tezpur University** Assam have covered various topics of the course which have appreciation in the know of the students towards Food Standards and Quality control, further more theory and practical classes are to be conducted in the fore coming days.

As on 10th March 2023, the number of students who have opted for the course is 100 and the number of students paid their fee for course is 61.

What is food Safety

Food safety is a scientific discipline describing handling, preparation, and storage of **food** in ways that prevent food borne illness. This includes a number of routines that should be followed to avoid potentially severe health hazards.

Food safety is everyone's business
Eating unsafe food causes over 200 diseases

- Ensure it's safe**
Governments must ensure safe and nutritious food for all
- Grow it safe**
Agriculture and food producers need to adopt good practices
- Keep it safe**
Business operators must make sure food is safe
- Know what's safe**
Consumers need to learn about safe and healthy food

4 STEPS TO FOOD SAFETY

- CLEAN**
- SEPARATE**
- COOK**
- CHILL**

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "ADJUDICATION AND FOOD SAFETY TRIBUNALS". The slide content is as follows:

ADJUDICATING OFFICER	FOOD SAFETY APPELLET TRIBUNAL
State Govt. to notify Adjudicating Officer not below the rank of Addl. District Magistrate.	Central Govt. or State Govt. may notify and establish one or more tribunals known as Food Safety Appellate Tribunals

Below this table, there is a section titled "SPECIAL COURTS" with the text: "Central Govt. or State Govt. may constitute special courts for trial of offences relating to grievous injury or death of the consumer".

At the bottom of the presentation window, it says "Dr. Anupam is presenting".

On the right side of the screen, there are three video thumbnails:

- Top: Dr. Anupam (a man with glasses)
- Middle: Ceril (a man with a mustache)
- Bottom: A group of people in a classroom setting, labeled "Ceril" and "1 other".

At the bottom center, there is a large purple circle with a white letter 'S' and the label "You".
