INITIAL INDUCTION PROGRAM

The Talent Transformation team at Wipro groom's campus selects to help them face the challenges of the corporate world.

A holistic 360 degree approach to training is adopted and helps them hone their fundamental computer skills followed by insights into Wipro businesses, process, technology and behavioural skills.

To understand and appreciate the mindset of the young Trainees and ensure that the transformation is smooth, the induction program is done by a team of dedicated professionals who have exposure to the academic and corporate sectors alike. Project Readiness Program (PRP) is a training program designed to address the basic learning needs of the Trainees.

Corporate Readiness Program - CRP

The CRP program is focused on making young Trainees comfortable in a corporate environment. This program starts with a corporate induction.

“EMERGE” a behavioural skills building training program ensures that the fresh Trainee start feeling at ease in the “corporate world”. This activity based behavioural intervention informs the new entrants about the corporate work culture and business etiquette.

Technology Readiness Program - TRP

The technology training provides critical technical skills required to work on projects allocated to Trainees and prepare to face the demands of the project world. We begin doing this by familiarizing with Wipro's businesses and work environment.

The methodology of training is “Project Based Learning” (PBL) approach, the entire learning is designed around a series of projects that the recruits are expected to complete individually by learning and applying various topics required to complete the project. Starting with individual projects, the PBL approach ends with recruits working on a team project.
