INVITATION OF FREE MEDICAL CAMP

REPORT OF FREE MEDICAL CAMP

The MSc Botany students organized a free medical camp on February 25, 2024, in the impoverished urban area of Devadhanam. Teaming up with Trichy Child Jesus Hospital, the doctors Dr. Sr. Vijila Paulraj, Dr. Sr. Jakulin, and Dr. Sr. Paulin provided diagnoses and medicines to the patients. The camp included health checkups for BMI, blood pressure, and overall blood health. Reverend Dr. T. Sahayaraj, SJ, who gave the opening speech, graced the event. The coordination of the program was handled by Mr. S. Lenin, Senior Coordinator, Mr. Karthik, and the team of MSc Botany students. The program was presided over by Mrs. C. Thangalakshmi, Councilor, Mr. Kamaraj, Village President, and Mr. James, Urban Area Development Committee Member. In total, 220 patients were able to benefit from the medical camp.

REPORT FREE EYE CHECKUP CAMP

Eye screening camps and general medical camps were organized in rural villages and urban poor areas. The main goal of these camps was to detect individuals with various eye issues such as conjunctivitis, age-related macular degeneration, cataract, diabetic retinopathy, and glaucoma. Optometrists played a crucial role during these camps in preventing visual impairments by providing discounted glasses from reputable optical companies. A total of 436 patients tested in the camp, with 16 of them being recommended for eye surgery.

REPORT OF INTERNATIONAL YEAR OF MILLETS AND NATIONAL NUTRITION MONTH CELEBRATIONS

TheExtension Department-SHEPHERD, Integrated Child Development Service, Tiruchirappalli and Rotary club of Trichy City jointly organized International Year of Millets and National Nutrition Month celebrations on 29th September 2023 at College Community center for the anganwadi workers and college students. The aim of the program was to promote healthy generation in India.

Rev. Dr. T Sahayaraj SJ, Director, The Extension Department-SHEPHERD, gave inaugural address. He insisted on the medicinal use of millet, which promotes the physical and mental health of every person Dr. Rajendran, Deputy Principal felicitated. He advised the audience to adopt traditional food instead of the unhealthy fast food culture. ex. Country sugar.

Mrs. Kowsalya, Director, Project-II, ICDS, Tiruchirappalli gave key note address. She said, "the role of WHO in public health, promote well-being and prevent diseases in rural and urban communities." Prof. T. Diwakar, Department of Biochemistry, Assistant professor felicitated. He emphasized the internal organs of the human body that are affected by unnatural food. He recommended that millet be taken as a healthy food supplement for humans. Rtn. Manigandan, President, Rotary Club of Trichy city, Rtn.Balaji, past president, Rtn. Ganesh, Mr. Iyappan, Members participated. Mr. S. Lenin, Senior Coordinator, Extension Department-SHEPHERD and Mrs. Monica, Block Level Coordinator, ICDS welcome the gathering and gave vote of thanks. Mr. Jeyaseelan, Junior Coordinator hosted the programme. Mr. C. Jeyachandran, Mr. P. Vijayakumar, Senior Coordinators, Mr. T. Joseph chiristu raja, and Mrs. Yasodai, Junior Coordinators and Mr. Amaleshwaran, Office Assistant participated.

A total of 32 Anganwadi workers from various centres and hundred and forty (140) college students from various discipline participated. Twenty (20) different millet dishes and ranges displayed during this program. Finally, everyone was served traditional food.

DESIGN SMALL-SCALE WIND MILL TO RUN LOW POWER DEVICES INSTALLATION

Date :23.03.2024

Time: Morning 10.00 am

Place: Nagamangalam, Manikandam Block, Tiruchirappalli

Welcome Address	: Ms. R. Prathiksha Lakshmi IIYear Student, Department of Commerce, SJC
Felicitation	: Mr. Vellaisaamy President of Nagamangalam
Chief guest	: Rev. Dr. T. Sahayaraj,SJ Director, Extension Department-SHEPHERD
Vote of thanks	: Mr. S. Jayaseelan S Coordinator of Shepherd Department
Master of Ceremony	: Ms. K. Kaviya IIYear Student, PG Department of Commerce, SJC

REPORT OF DESIGN SMALL-SCALE WIND MILL TO RUN LOW POWER DEVICES

St. Joseph's College (Autonomous) is recognized as a Participating Institute (PI) of Unnath Bharat Abiyan (UBA). The UBA projects have been carried over by the Extension Department-SHEPHERD of St. Joseph's College in the adopted village. One of the notable projects involved the installation of a small-scale windmill at the Panchayat Council Building in Nagamangalam, Manikandam Block, Tiruchirappalli district. The windmill, valued at Rs. 1,50,000/- (Rupees one-lakh fifty-thousand), was made possible through the collaborative efforts of the UBA Cell, Panchayat Council, and College Management.

This initiative marks a significant milestone in the history of St. Joseph's College, as it represents a commitment to sustainability and innovation. The miniature windmill is designed to provide clean and environmentally friendly electricity to help meet the Panchayat's partial power requirements (1 KV). Its installation at the Panchayat Council Building in Tiruchirappalli district signifies a step towards a greener future for the college and the community it serves.

"PALM SEED SOWING IN RURAL WATER RESERVIORS BANKS"

Date: 26/11/2023 Time:09:30AM

Venue: Archampatti, Thogamalai Block.

REPORT

The Department of Business Administration and Extension Department - Shepherd successfully conducted a program focused on palm seed sowing in rural water reservoirs banks. This initiative aimed to promote sustainable agriculture practices, enhance rural livelihoods, and contribute to environmental conservation. Presidential Adress was delivered by Rev. Dr. C. Sahayaraj, SJ Director, Extension Department – SHEPHERD, St. Joseph's College (Autonomous) In the Presence of Mrs. G. Deviga Govindaraj President, Archampatti Panchavat, Thogamali Block, Karur.

Inaugural Adress was deliverded by Mr. C. Jeyachandran Senior Coordinator. Extension Department – SHEPHERD, St. Joseph's College (Autonomous). And the organizers Prof. S. Arputharaj, Prof. J. Inigo Papu VinodhanAssistant Professors, Department of Business Administration, St. Joseph's College (Autonomous). Then the Organizers were honoured by the village people with a Shawl.

Expert speakers highlighted the significance of palm seed sowing in water reservoirs for improved agricultural yield and environmental conservation.Participants gained insights into the economic benefits and long-term sustainability of palm cultivation.Live demonstrations showcased the step-by-step process of palm seed sowing in water reservoirs.Participants actively engaged in the practical sessions, fostering a hands-on learning experience.

Local farmers, community leaders, and agricultural enthusiasts actively participated in the program.Interactive discussions facilitated knowledge-sharing and networking among participants.Emphasis was placed on the ecological benefits of palm cultivation, such as soil conservation and water management.The program underscored the role of sustainable agriculture in mitigating environmental challenges.

The palm seed sowing program in rural water reservoirs organized by the Department of Business Administration and Extension Department - Shepherd proved to be a successful endeavor in promoting sustainable agriculture and fostering community engagement.

REPORT ON

YOUNG STUDENT SCIENTIST PROGRAMME

(26.12.2023 to 9.01.2024)

81 Students from Govt. Hr. Sec. Schools of Truchirappalli and Pudukottai districts have attended the young student scientist programme jointly organized by Extension Department of Chemistry and Tamil Nadu State Council of Science and Technology. The young students were taught the basic concepts of Chemistry and fundamentals of chemistry practical.

Atomic Structure, Periodic Classification, Acid, Base and Salt, Applied Chemistry, Carbon and its compounds, Types of Chemical reactions were the topics covered in the theory classes. Demonstration and Hands on experience were given to students with regard to practicals like Salt analysis (Anions and Cations), organic analysis, and Volumetric analysis. In addition to these concepts, scientific mind and interest were created among the students. A special lecture on Food Adulteration and its identification was given by Dr. S. Antony Sakthi.

On 9th January, YSSP students participated in the Science exhibition. More than 10 students exhibited their chemistry experiments such as natural indicators, Electricity generation from Lemon and Tomatoes, Water Purification techniques, Density diffence of liquids and preparation of Hand Sanitizer.

Chemistry department has won the first prize in the Science exhibition. Dr. S. Antony Sakthi & Dr. C. Rajarathinam were the staff in-charges for the Chemistry subject.

PG Dept. of Counseling Psychology

ST. JOSEPH'S COLLEGE (Autonomous)

Tiruchirappalli - 620-002

Counselling Orientation to School Students Report

Date: 28th February 2024

Venue: St. Joseph's College Higher Secondary School, Trichy

Time: 11.30 am-12.50 pm

The department of Counselling Psychology students went to St. Joseph's College Higher Secondary School, Trichy as part of their extension activities.

There were eleven students participated in this extension activities.

The aim of this program is to build a strong mental health support to the students and to help them to study better and to help them in dealing with interpersonal issues and emotional distress. Students oriented the students about mental wellbeing.

Students conducted various activities to increase physical and emotional wellbeing of the children felt joy of the arrival of students. They enjoyed the fun-filled activities.

They started to interact with sixth and eighth grades students at 11.30 am. The students organized interactive workshops focusing on stress management techniques, effective communication skills, and building resilience. They also facilitated group discussions on topics like self-care, peer support, and the importance of seeking help when needed.

To promote a healthy lifestyle, the students led energizing exercises and encouraged the children to engage in open conversations about their feelings and experiences. Through art therapy sessions and creative expression activities, they provided a safe space for the students to explore their emotions and enhance their self-awareness.

Conclusion: The Counselling Psychology students in collaboration the school aimed to create a nurturing environment where mental well-being is prioritized, and where students feel supported and empowered to overcome challenges. The positive impact of these extension activities was evident as the children expressed gratitude for the meaningful interactions and newfound knowledge that would help them navigate their personal and academic journeys with confidence.

Proceedings

- The extension activity was jointly organized by the Data Science and Shepherd Departments at Government Middle School, Aarchampatti on June 5th, 2023, from 11:00 am to 01:00 pm, with the aim of raising awareness about the Constitution of India. Mr. N. Govindaraj, Teacher at Government Elementary School, Alathur, initiated the event and introduced the chief guest and other members.
- The chief guests, Mr. Thiruganam, Deputy Block Development Officer, Karur, and Mrs. Rathika, Head Master of Government Middle School, Aarchampatti, were honored with shawls, and over 120 villagers actively participated in the activity.

HOD Department of Data Science St. Joseph's College (Autonomous) Trichy - 620 002.

Department of Data Science St. Joseph's College (Autonomous) Accredited at A++ Grade (4th Cycle) by NAAC, Special Heritage Status awarded by UGC Tiruchirappalli – 620 002, India.

- •
- During the activity, Mr. Thiruganam, the chief guest, shared insights on maintaining cleanliness in our surroundings. He emphasized the importance of proper waste management and announced arrangements to collect garbage from the villagers and convert it into manure. He also provided information about other development schemes allocated for the village.

Department of Data Science St. Joseph's College (Autonomous) Accredited at A++ Grade (4th Cycle) by NAAC, Special Heritage Status awarded by UGC Tiruchirappalli – 620 002, India.

- The first session of the activity was conducted by Mr. C. Jeyachandran, the Senior Coordinator of the Shepherd Department at St. Joseph's College, Trichy. He discussed the significance of the Indian constitution and emphasized why it was essential for people to be aware of it. He explained how that knowledge could empower individuals to demand their rights from the government and seek justice through the judicial system.
- The second session was led by Dr. V. Arul Kumar, Assistant Professor in the Department of Data Science at St. Joseph's College, Trichy. He shared detailed information about the fundamental rights enshrined in the Indian constitution and the various categories they belonged to. Dr. Arul Kumar clearly explained each category, discussing the rights provided to Indian citizens and other residents of the country. He also addressed the process of obtaining rights through the judiciary if they were not initially granted. Additionally, he explained the rights that could be provided by the Indian constitution during emergency periods and highlighted the exceptions to their applicability.
- Finally, the extension activity concluded with a vote of thanks delivered by Dr. M. Kirushanth, Assistant Professor, Department of Data Science, St. Joseph's College, Trichy.

Proceedings:

An extension activity titled "Mobile Usage for Better Learning" was conducted at YMCA Nursery School in Puthur, Trichy on February 7, 2024.

The objective of this initiative was to provide valuable insights into utilizing mobile technology to enhance learning experiences for students. It aimed to introduce innovative methods of incorporating mobile devices into the educational process, catering to students from 1st to 5th standard.

Activity Details: The activity commenced with a warm welcome from the school authorities, including Mr. E.A. Ravi, President, Assistant Commissioner (Retd.), Customs, and Dr. K.R. Martin, Chairman, YMCA Nursery and Primary School. Their presence and encouragement set a positive tone for the event and motivated both students and organizers.

The resource persons, Dr. A. Beatrice Dorothy and Dr. I. Priya Stella Mary, initiated the session by elaborating on the significance of integrating mobile technology into education. They engaged the students through interactive sessions, discussions, and practical demonstrations, showcasing the educational benefits of mobile applications.

Highlights of the Activity:

Games and Prizes: To make the learning experience enjoyable, games incorporating mobile devices were organized. Students enthusiastically participated in educational games, with chocolates distributed as prizes to the winners. This added excitement and motivation to the event.

Feedback and Interaction: Students were encouraged to share their thoughts, experiences, and feedback throughout the activity. This facilitated a two-way communication channel, enabling students to express their opinions and queries regarding mobile usage for learning.

Appreciation from the School: Ms. Sheela, Principal of YMCA Nursery School, expressed her appreciation for the initiative and commended the efforts of all involved, including Mr. E.A. Ravi and Dr. K.R. Martin. She acknowledged their dedication in supporting educational endeavors and fostering a conducive learning environment for students.

The extension activity on "Mobile Usage for Better Learning" at YMCA Nursery School proved to be a fruitful endeavor, providing students with valuable insights and practical exposure to leveraging mobile technology for educational purposes.

Jointly Organizing a Two Days ANU Awareness Program 2023

on

Atomic Energy and its uses to the Humanity **30th Nov. & 1st Dec. 2023** Venue: St. Joseph's College (Autonomous), Tiruchirappalli, TamilNadu, India

Preamble

The Anu awareness program is to showcase indigenous progress in nuclear technology as a part of Azadi ka Amrit Mahotsav, which is being co-organized by the Indira Gandhi Centre for Atomic Research, St. Joseph's College (Autonomous), Tiruchirappalli, and the Academy of Sciences, Chennai, on November 30 and December 1, 2023. The program is intended to create awareness about nuclear science and technology and highlight the activities of the Department of Atomic Energy (DAE) among the youth, especially in the rural areas of all districts in Tamil Nadu.

The objective of the program is threefold:

- (i) The progress in nuclear science and technology in India, including nuclear power and societal application of ionizing radiation
- (ii) To create interest among the youth in science subjects and to explore the opportunities at DAE
- (iii) Dispelling myths on nuclear energy.

The awareness program will be a two-day event comprising lectures, quiz competitions, creative writing competitions, conceptual present actions, and exhibitions. It showcases nuclear reactor models and the application of ionizing radiation in medical, industrial, and agricultural fields.

About IGCAR

Indira Gandhi Centre for Atomic Research [IGCAR], the second largest establishment of the Department of Atomic Energy next to Bhabha Atomic Research Centre, was set up at Kalpakkam, in 1971 with the main objective of conducting broad based multidisciplinary programme of scientific research and advanced Engineering, directed towards the development of sodium cooled Fast Breeder Reactor [FBR] technology, in India. This is part of the second stage of Indian Atomic Energy Programme, which is aimed at preparing the country for utilization of the extensive Thorium reserves and providing means to meet the large demands of electrical energy in 21st century. In meeting the objective, a modest beginning was made by constructing sodium cooled Fast Breeder Test Reactor [FBTR], with a nominal power of 40 MWt, based on the French Reactor, RAPSODIE. The reactor attained its first criticality on 18th Oct, 1985 and has been in operation at its maximum attainable power level of 10.5 MWe with a small core. It is the first of its kind in the world to use Plutonium Uranium mixed carbide as a driver fuel. Over the years, the centre has established comprehensive R & D facilities covering the entire spectrum of FBR technology related to Sodium Technology, Reactor Engineering, Reactor Physics, Metallurgy and Materials, Chemistry of Fuels and its materials, Fuel Reprocessing, Reactor Safety, Control and Instrumentation, Computer Applications etc., and has developed a strong base in a variety of disciplines related to this advanced technology. With the experience and expertise gained by the successful operation of FBTR, the Centre has embarked upon the design and construction of 500 MWe, Prototype Fast Breeder Reactor.

A 30 KWt, U233 fueled mini reactor [KAMINI] has been made operational for neutron radiography, neutron activation analysis etc., IGCAR utilizes its expertise and resources in enhancing its standing as a leading Centre for research in various branches of basic, applied and engineering sciences that have a bearing on Nuclear Technology like Structural Mechanics, Heat and Mass Transfer, Material Science, Fabrication Processes, Non-Destructive Testing, Chemical sensors, High temperature thermodynamics, Radiation Physics, Computer science etc.,

About the Academy of Sciences (ASC)

The Academy of Sciences, Chennai, was formerly known as the Tamil Nadu Academy of Sciences since 1976. It reviews periodically the education, research, development, and application in the various branches of science in our state and honours the scientists with awards. It supports and recommends grants for organization of special courses that have relevance to the needs of the students. The Academy of Sciences Chennai is conducting the Summer Training Program (STP) in Physics, Chemistry, Biology and Mathematics every year for PG students for 3 weeks. The Academy organizes or helps to organize, national and international levels seminars, workshops, and conferences at the state. Many Research institutes and Universities in Tamilnadu are the Institutional members of the Academy.

About the Institution

St. Joseph's is an autonomous college of the Bharathidasan University, Tiruchirappalli, located in the central part of Tamil Nadu, South India. It was established in 1844 by the Society of Jesus (The Jesuits). The motto of the college is "For the Good and the True". The college celebrated its centenary in 1944, sesqui-centenary in 1995 and Dodransbicentenary in 2019. The college was recognised by UGC as a College with Potential for Excellence (CPE) in 2004 and 2014, NAAC has reaccredited the college at the highest A⁺⁺ Grade (Cycle-IV) in 2019 and is ranked 25th position in NIRF India rankings 2023 under college category. St. Joseph's is the only college in Tamil Nadu that has been awarded with Special Heritage Status by UGC. The college trains young men and women of quality to be leaders in all walks of life so thatthey serve the people of the Nation in truth, justice and love. Accordingly, this college strives to be an agent of social change, by incorporating the scientific and technological growth in its UG, PG and Research (M.Phil/Ph.D) programmes.

About the Department

This century-old Department of Physics started B.A. Physics (1881), B.Sc (Hons.) Physics (1911), B.Sc (1930), M.Sc Physics (1961), Ph.D. (1971) and M.Phil (1977). Other than its own evolution, it had given birth to two departments, Computer science (1983) and Electronics (1993) in the college. To cater to the needs of the students, B.Sc and MSc (Physics) programmes in Self-financing section (shift II) was established in 1982 and in 2004 respectively. Presently there are 31 faculties and 9 non-teaching staff in the department. The department is constantly developing with the continuous support of management and the funding of UGC, DST-FIST, DST-SERB, DRDO and CSIR.

The department had established national and international collaboration in many fields of research in recent years and organises symposia and conferences periodically at all levels to ignite the students with scientific spirit. Over a period of 140 years, the alumni of the department have served and are still serving the nation in various capacities. Notable among them are Bharat Ratna, Dr APJ Abdul Kalam, the former President of India and Dr G N Ramachandran, an Indian Physicist who was known for his work, "The Ramachandran Plot" for understanding peptide structure, nominated for nobel prize (Doctoral student of Nobel laureate Sir C. V. Raman).

Events

Technical Talk

Experts from Department of Atomic Energy Topic: 1 Atoms in the Service of the Nation Topic: 2 Career Prospects in Department of Atomic Energy

Exhibitions

Exhibition for UG, PG College Students and Research Scholars

Competitions

Topic: Integrated approach in science and technology for sustainable future

(i) Quiz competitions (ii) Creative writing competitions

Date : 30th November 2023 Venue : St. Joseph's College(Autonomous), Tiruchirappalli, Tamilnadu

Registration Details *No registration Fee

Who Can Participate?

UG, PG students, Research Scholars and Faculty members of Physical, Chemical and Biological Sciences are eligible to attend this program.

Registration Starts on:14th November 2023Last date for Registration:24th November 2023

*Lunch and refreshment will be provided for registered participants

*Registration can be done only by online mode

Registration Link & OR Code https://forms.gle/3C8ueXpFwWDvMPyy8

ANU AWARENESS PROGRAM – 2023 – REPORT

The Department of Physics, St. Joseph's college, Tiruchirappalli, Indira Gandhi center for Atomic Research, Kalpakkam and The Academy of sciences, Chennai jointly organized a two-day ANU Awareness program- 2023 on **Atoms in the service of the Nation** at St. Joseph's college,

Tiruchirappalli on 30th Nov & 01st Dec 2023.

The ANU awareness program is to showcase indigenous progress in nuclear technology as a part of AzadikaAmritMahotsav which is an initiative of the Government of India to celebrate and commemorate 75 years of independence and the glorious history of its people, culture and achievements. This program is intended to create awareness about nuclear science and technology and highlight the activities of the Department of Atomic Energy (DAE) and career guidance among the youth, especially in the rural areas of all districts in Tamil Nadu.

The objective of the program is threefold:

(i) To showcase the progress in nuclear science and technology in India, including nuclear power and societal application of ionizing radiation.

(ii) To create interest among the youth in science subjects and to explore the opportunities at DAE.

(iii) Dispelling myths on nuclear energy.

The awareness program includes a two-day event comprising lectures, quiz competitions, creative writing competitions, slogan writing and exhibitions. It showcases nuclear reactor models and the application of ionizing radiation in medical, industrial, and agricultural fields. **DAY 1 – 30th November**

The event was inaugurated on 30.11.23 at 9.30 AM with a prayer song. Dr. I Johnson, Head and Associate Professor, Dept. of Physics, St. Joseph's College welcomed the gathering. He talked about the association of IGCAR with St. Joseph's college. The felicitations were given by Rev. Dr. K AMAL SJ, Secretary, St. Joseph's College & Rev. Dr. M. Arockiasamy Xavier SJ, Principal, St. Joseph's College. Prof. Dr. B.Venkatraman, Director, IGCAR, Kalpakkam delivered the Presidential address. In his presidential address he started by wishing the college management. He thanked Dr Stephan, Secretary ASC, for initiating this awareness program. ASC plays a vital role in popularizing the basic science at University level. The IGCAR Centre primarily focuses on sodium cooled fast reactor and associated fuel cycle technologies. They also extended their arm in deploying various spin of technologies for societal applications and to create awareness on the need for nuclear power. Worldwide they are relying on nuclear power which is green and clean energy source. Even UAE which has large oil resource is getting ready with four nuclear power plant with 1000 MW power capacity each. So there should be greater awareness on nuclear power for two reasons. One is the effect and other is the various opportunities in the field. He mentioned about the role of nuclear energy in agriculture, food products to processing of food, to defense, transport, heritage and how atoms severed mankind in variety of ways and how radiation plays a vital role.

IGCAR is the UGC DAE nodal centre which can be used by research scholars, faculty and student to pursue Ph.D and research projects. So, he earnestly requested all the constitutes/colleges to visit regularly. The students from chemistry, biology and physics can do their projects at IGCAR.

The Director further explained that starting salary for Class I officer is about Rs.70, 000/and many privileges like medical facilities, schools and accommodations are included.

Director asked the colleges to offer many elective courses in the latest fields which may create job opportunities So all these can be done in collaboration with IGCAR along with professional bodies like ASC. New departments like school of excellence in Atmosphere Physics, Meterological Physics and Environmental physics can also be started. With this he concluded by encouraging the students.

Dynamics of this awareness program was given by Prof. Dr. A. Stephen, University of Madras, Secretary, ASC. The awareness program was conducted by Academy of Sciences for two reasons.

1. To promote science in higher educational institutions

2. To know the job opportunities offered by IGCAR/DAE.

Dr. B. Kanickairaj, Associate Professor, Dept. of Physics, St. Joseph's College delivered the vote of thanks for the inaugural session.

Inauguration of Exhibition

Dr. B. Venkatraman, Director, IGCAR, Kalpakkam inaugurated the exhibition on ANU Awareness with ribbon cutting along with Dr. A. Stephen, Secretary, ASC, Rev. Dr. K AMAL SJ, Secretary, St. Joseph's College & Rev. Dr. M. Arockiasamy Xavier SJ, Principal, St. Joseph's College. The technical team from IGCAR namely Smt. Jalaja Madan Mohan, Shri. Ramu, Shri Parthiban and Shri Jayakumar exhibited the models and charts which primarily focus on the nuclear reactor principles and history of nuclear energy in India.

This was followed by technical talk on Atoms in the Service of the Nation. This talk was delivered by Prof. Dr. B. Venkatraman, Director, IGCAR, Kalpakkam. The abstract of his talk is as follows. The usage of Nuclear Energy is roughly about 10%. But by 2070, this is bound to increase to about 40% to 50%. In United States of America More than 50% of the power is produced by nuclear. He mentioned that level of pollution in nuclear plants, is the least. It is one of the best in countries which have good resources of energy. Nuclear has contributed to net carbon savings of the planet. Around Giga ton of carbon dioxide has been avoided. The nuclear plant of 2000 MW capacity is nearing completion here. In Kudankulam, we were one of the earliest countries to realize nuclear energy in the long run will be a sustainable solution. Homi Baba formulated a three-stage program which today, internationally is accepted. Today World talks about generation four reactors. We talked about generation four reactors in 1940s and 1950s. That is why I say this is one of the most visionary departments. 1950s Baba could imagine that nuclear energy is going to play a role in the entire world. Not only are those, the radiations play a very important part in our society and day to day life. He also said that radiations have a great role to play and atoms are for peace and prosperity of mankind. Our reactors have the highest safety appreciation, longest and continuous operation also and holds high safety record worldwide. All our plants are very safe. The possibility of occurrence of any type of accident, as a layman, I would say is zero. The disaster will not happen because our reactors are designed for an earthquake on a richter scale of six to seven, for a tsunami, with a tidal wave for around six to 7 meters. And it happened. In Kalpakkam, during the tsunami, we lost 70 people in our township. Sunday morning, we were all there. We thought it's an earthquake. So people from the first floor started coming down to the ground floor. Everything was there. It was at that time, around 09:00 that the first wave strikes. It was a horrible thing. The wave just came in. The force was so much. That bulldozer was raised and thrown by half a kilometer. A bulldozer which is weighs few tons. Our constructions are all very good. So nothing happened. Plant was working perfectly fine. So it is a very safe. All of the reactors are very safe. We have double containment. The fuel is encapsulated in stainless steel structural material. We have outer containment. This containment is 1.2 meters thick concrete wall. So the question of accidents and releases are next to impossible. And all these things are for a minimum period of 60 years and extended up to 80 years. Today the oldest reactor in the country is Tarapur Atomic Power station. 1970 it started operating. It is still operating. Electricity from there is Rs1.50 per unit say. Even today it is being Kalpakkam atomic Power station gives roughly around Rs 2.40. Nuclear is definitely one of the clean powers. It is base load friendly. We have avoided 707,000,000 tons of carbon dioxide because we have switched to nuclear in certain areas. Today we are talking of vision 2047, when India would be 100 years since independence.

We have ten reactors under construction. And ten more reactors have been sanctioned in five more sites. So within 2047 we are going to have roughly about 15 to 20 Giga watts of electricity through the nuclear route.

Technical input session –II was discussed under the topic **Career Prospectus in the department of atomic energy,** which was delivered by Dr. Meenakshi, IGCAR, Kalpakam. In that session she explained the details about the various Job opportunities available for different levels in IGCAR. She also gave exposure regarding different competitive exams and their preparation methods. She also encouraged the students to join in IGCAR to serve the nation.

Quiz competition was conducted by **Dr. S. Chandrasekaran Head, HISD, HSEG, IGCAR** and their team at SAIL Hall at 2.00 PM. Students from 17 colleges participated. Simultaneously creative writing competition was conducted at PH-6 in Physics department, around 20 participants from various colleges participated.

DAY 2- 01st Dec

The ANU Awareness exhibition was opened for all participants at 10 .00 AM. Students from various schools and college students visited the exhibition. Mrs. Jalaja Madan Mohan Head, TCPAS, RESD, IGCAR delivered the talk on the basic of nuclear energy for human life to the participants. Slogan competition was also conducted by the IGCAR team for the students.

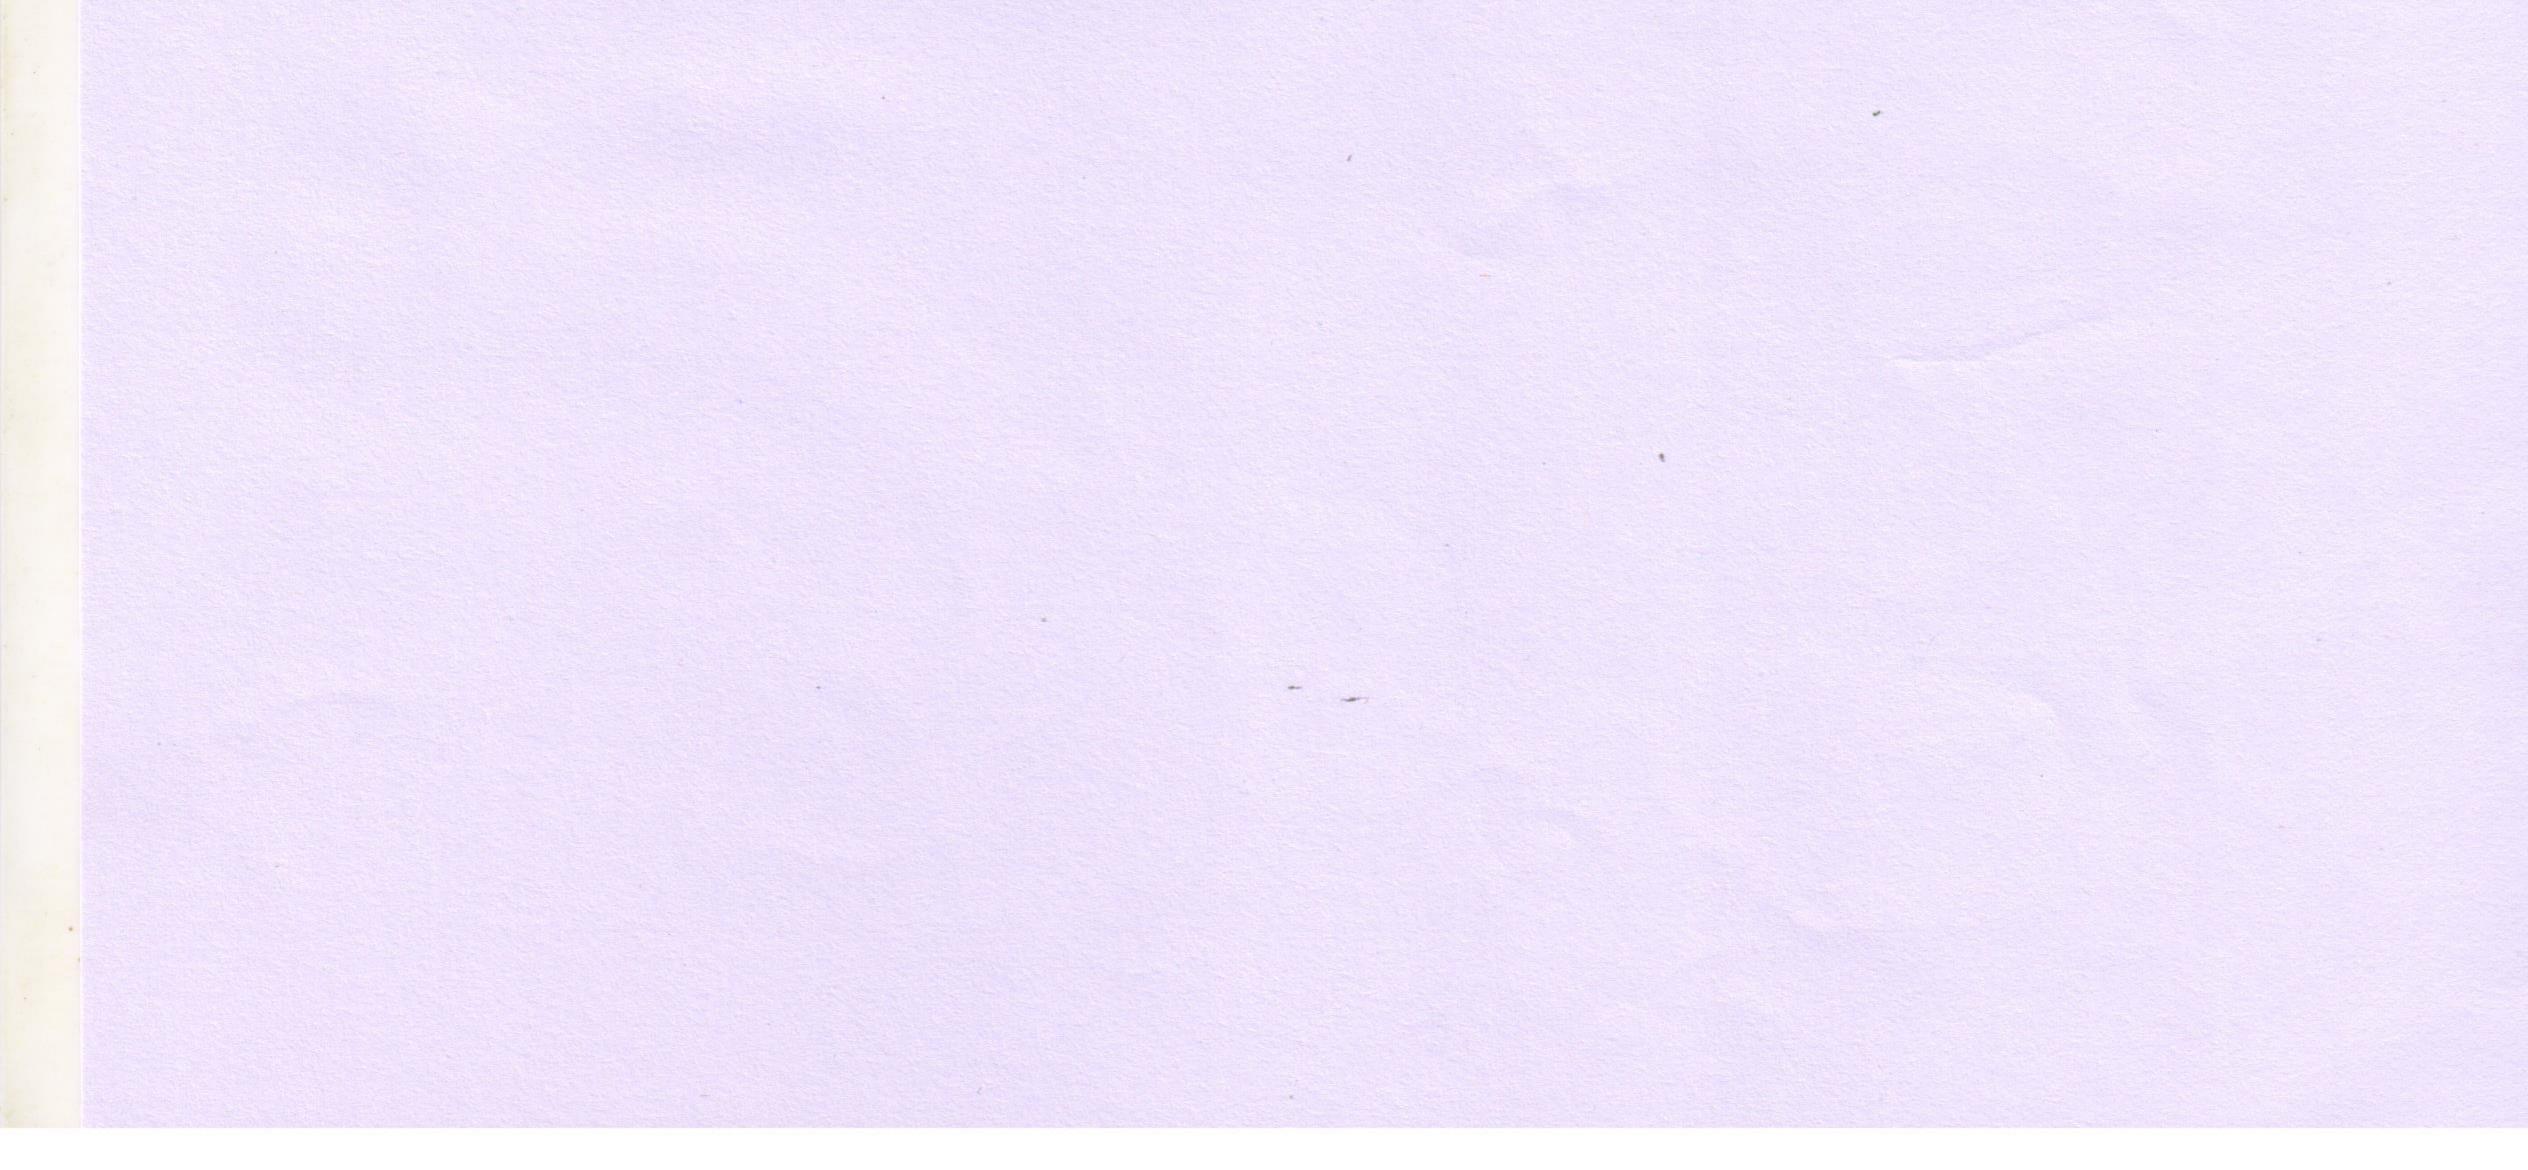

The valediction of the ANU Awareness program started at 3.00 PM with Prayer song. Dr. S. Lourdhuraj welcomed the gathering followed by the felicitation by **Dr. P. Rajendran**, Deputy Principal, St. Joseph's college. The valedictory address was given by Rev. Dr. Paulraj Micheal, Rector, St. Joseph's college who distributed the prizes for the winners of various competitions. In quiz competition Ist, IInd & IIIrd places were won by Bishop Heber college, Trichy, Holy Cross college, Trichy and St. Joseph's college, Trichy, respectively.

In creative writing competition Ist, IInd & IIIrd places were won by Seethelakshmi Ramasamy College, Trichy, Cauvery college for women, Trichy and Seethelakshmi Ramasamy College, Trichy, respectively. In slogan writing competition Ist, IInd & IIIrd places were won by St. Joseph's college, Trichy, St. Joseph's college, Trichy and Cauvery college for women, Trichy, respectively. The valedictory function ended with vote of thanks given by Dr. I Johnson, Head and Associate Professor, Dept. of Physics, St. Joseph's College, Trichy followed by National anthem.

There were about 200 registered participants in the ANU awareness program and around 1200 participants visited the exhibition.

Dr. I. JOHNSON, M.Sc., M.Phil., Ph.D. Head Research Advisor & Principal Investigator Associate Professor, Dept. of Physics St. Joseph's College (Autonomous) Tiruchirap#alli-520 002.

ANU Awareness Program 2023 held on 30th Nov. &1st Dec. 2023

The Hindu Bureau TIRUCHI

More students should opt to study science subjects related to nuclear energy in order to explore its potential use in society, said B. Venkatraman, Director, Indira Gandhi Centre for Atomic Research (IGCAR), Kalpakkam, at a meeting hosted by the Department of Physics, St. Joseph's College in Tiruchi on Thurs-

day. He was speaking at the inauguration of the "ANU Awareness Programme 2023", jointly organised by IGCAR and The Academy of Sciences Chennai (ASC), in association with the Physics Department of the change, there is concern college.

Various governments, even oil-rich countries such as

In his address, A. Stement of Nuclear Physics, cretary of ASC, explained up research and develop the objectives of the ANU atomic energy-based solutions in other fields. "This programme will create an to researching atomic awareness about the need science in innovative for nuclear energy, beways," he said.

> principal, St. Joseph's College, spoke.

the United Arab Emirates (UAE), are building nuclear power plants. As such, we need to study its effects and the opportunities that are growing for our young science graduates in this field," said Mr. Venkatraman.

phen, Professor, Depart-Madras University, and seprogramme. "We want to motivate students to get in-

M. Arockiasamy Xavier,

B. Venkatraman, director, IGCAR, addressing students at St. Joseph's College in Tiruchi on Thursday. M. MOORTHY Mr. Venkatraman said study of basic sciences would help students take

cause today, due to climate

about this issue globally.
